

ESCAPE SEQUENCE

Emergency Briefing – Read Fast.

The ship is failing. There are 3 escape pods. Not everyone gets one.

THE OBJECTIVE

Get through 3 obstacles. Earn a P.A.C. keycard. Escape. No keycard? You don't make it out.

THE CARD GAME

Each obstacle is a round of cards played against **The System** – the ship's AI.

- Cards are numbered **1 through 9**
- Get as close to **21** as possible without going over
- The System is dealt one card face-down – you won't see it until results are calculated

On your turn:

- **Hit** – draw another card
 - **Stay** – lock in your total
-

ROUND OUTCOMES

Result	Consequence
Closest to 21	Advance + receive a P.A.C. keycard
Under 21, not closest	Advance, no keycard
Over 21 (bust)	Eliminated
Over 21, System also busts	Everyone advances – closest still gets the keycard
Tie	Bonus tiebreaker round – no specialty cards

SPECIALTY CARDS

Dealt starting in **Round 2**. One-use. Use them wisely.

Card	Effect
Shield	Return your last drawn card
Wild	Choose your card's value
Reverse	Subtract your last drawn card from your total
Freeze	Skip a chosen player's next turn
Swap	Exchange one of your cards with The System's
Peek	View The System's hidden card or the next card in the deck

- You may **hold** your Round 2 card and use it in Round 3
 - **The System** always holds its card - it plays in Round 3
-

THE ROUNDS

Round 1 - No specialty cards. Survive or die.

Round 2 - Specialty cards are dealt. Use yours now or save it.

Round 3 - The System plays its specialty card. This is the hardest round. After results - players with a keycard escape. Everyone else is left behind.

KEYCARDS

- Only **3 keycards** exist
 - Earned by being closest to 21 in a round
 - If you earn a second keycard, convert it to a **Shield** or give it to another player
-

SURVIVE. ESCAPE. DON'T LOOK BACK.
